

Type 2 Collagen:

Makes up a majority of the protein molecules in your cartilage, the connective tissue that protects your bones at the joints, in your spinal disks, and your eyes, making it a potent way to support joint health. **Arthro MobFlex** provides scientifically advanced ingredients that work synergistically in the body to promote healthy joints. This premium formula supports joint flexibility and range of motion. Collagen Type 2 is the key structural protein of joint cartilage. This premium formula combines BioActive GenoCell Collagen Type 2, Turmeric, Hyaluronic Acid, and a sophisticated blend of joint targeted ingredients to support flexibility, lubrication, and healthy inflammatory response.

Hydrated cartilage is soft and smooth. When dehydrated, however, it can cause friction, which leads to pain. Similar to a soft, flexible wet sponge, cartilage becomes stiff when it dries out. Water also helps to reduce swelling, thereby reducing pain. **Arthro MobFlex** comes in a 150 capsules container, it contains Glucosamine, Chondroitin, and MSM which are natural occurring substances:

Glucosamine: Has anti-inflammatory properties, helps develop and renew cartilage and keeps it lubricated.

Chondroitin: helps the body maintain fluid and flexibility in the joints.

MSM: helps support muscles and tendons in the body.

SUGGESTED USE: Take five (5) capsules daily.

Your joints hurt? We have the best solution!
